

ECO Roller Garage Door

Trusted and Quality Assured.

Choosing a product for your home as important as a garage door is not something you do very often. Perhaps only once or twice in a lifetime! ECO insulated roller garage doors are quality assured, built to last and packed full of clever features...

Why Choose ECO?

Convenient electric operation

with a powerful yet quiet motor concealed within the barrel and a manual override that keeps your door operational in case of power failure.

Weather proof

design with insulated slats, helps keep the weather out (and keeps the heat in) so your garage is no longer a draughty no-go area.

They are covered by fair warranties

roller doors are covered by a comprehensive warranty of up to five years.

They are quality assured & safe

Every door is manufactured to our ISO 9001 certified quality systems and UKCA marked and safety compliant.

They take up less space

than any other garage door, rolling up into a compact space with no tracks projecting into the garage.

Make extra space

by fitting behind the opening, giving you a wider and taller opening. Vertical opening means the door doesn't project out onto your drive or into the garage space, allowing you to park up to the door inside and out.

They look simply stunning

The gentle curve and the subtle lines of each slat are finished in a tough polyester powder coating to create an overall look that is classic and contemporary in equal measure.

ECO 77

ECO 55

What's the Difference?

Similar features only smaller! ECO 55 uses a smaller slat than the ECO 77 that allows it to roll tighter requiring less space at the top of the door. It's the ideal choice when headroom is especially limited.

Security.

Security Matters

Bikes, fitness equipment, tools whatever you keep in your garage in addition to your car, it's always a surprise when you add up the value – often several thousand pounds! The ECO 77 offers excellent security thanks to a powerful motor that holds the curtain locked when closed and strong locking straps that prevent forced lifting of the door.

Heavy duty extruded aluminium guides secure the door at the sides.

The extruded aluminium bottom slat adds extra strength to resist forcing.

Insulation.

Fully Insulated & Finished to Perfection

AlluGuard is designed to give thermal and acoustic insulating properties much higher than the average garage door. 'CFC' free polyurethane foam within the aluminium lath plus high performance weather sealing ensures good insulation. It's perfect if you want to use your garage as a work/play room or your garage is under a bedroom. The corrosion resistant aluminium laths are light yet strong and can be finished in a stunning range of colours.

Convenience.

No Wasted Space

Roller garage doors operate vertically, rolling into a compact coil within the garage, above the opening. Not only does this mean you can park right up to the garage door, but valuable space is not taken up inside your garage which could be used for storage.

Takes Up Less Space

Because it rolls 'tighter' than other roller doors, ECO takes up less headroom when open – just 300 mm for the ECO 77 and even less for the ECO 55 at 205 mm. The door typically sits behind the brickwork, allowing any existing frame to be removed. The compact side runners and increased drive-through space give you much more room to manoeuvre in and out of your garage. Doors can even be fitted externally where headroom is extremely limited.

Good Looks Inside & Out

The outside of the door is simply stunning, the inside equally impressive. ECO garage doors come with stylish white, black or anthracite guides as standard and the optional box cover gives an incredibly neat and compact finish – with no wasted space inside your garage!

Extra drive through width of up to six inches – 150 mm helps keep your wing mirrors unmarked!

The neat inside is made even tidier with the option of a box to house the door roll.

More space – park right up to the garage door

Colours.

A Wide Choice of Finishes

ECO wide choice of finishes ensure your new garage door not only looks good for years to come, but also complement the look of your home.

The door curtain

The door curtain is available in any of the corrosion-resistant colours shown above, for a durable finish that lasts.

The door guides

The guides are supplied in white, black or anthracite as standard, for a sleek and stylish look.

The printing process does not allow exact reproduction of the colours. Colour references quoted are the nearest standard RAL. They will not be an exact match and are intended as a guide only.

The door roll box

ECO 77 is supplied without a roll box as standard but is available as an option with a half or full roll box. ECO 55 is supplied with a half box as standard. Both are finished to match the door guides.

The standard configuration is with no roll box.

The half box option helps prevent debris dropping onto the door roll

The full box option encloses the door roll for a very neat installation.

Remote Control.

Effortless Performance

Remote control makes using your door effortless and secure. No need to get out of your car on a wet and windy night! With two handsets supplied with every Remote Controlled door, garage door access has never been so easy and affordable.

Controls to Suit You

With a range of controls available, choosing the ideal way to operate your doors couldn't be easier. Remote control, wall switch, keypad... See page 9 for general use controls & accessories.

All ECO Remote Controlled Garage Doors come with:

- Wireless or wired control unit
- 2 keyfob transmitters
- Optical safety edge
- Built-in anti-entrapment technology

Safety Edge

Peace of mind protection for you and your family. The doors' bottom edge rubber seal incorporates a sensor to detect obstructions and instantly stop and reverse the door a short distance when closing.

ECO

Switch Operated

Our best value garage door

If you don't use your garage door very often or your garage is mainly accessed via an internal door, the Switch Operated ECO is the ideal budget-friendly choice.

With an indoor hold to run control, simply press and hold one button to open the door and hold one button to close. For easy access from outside the garage, opt for an outdoor key switch instead.

Or enjoy the convenience of both indoor and outdoor control by combining the Genesis control unit with an outdoor key switch.

Indoor Rocker Switch

It must only be possible to operate the hold-to-run control in direct sight of the door.

Door Hardware Federation

Outdoor Key Switch

Genesis Control Unit

Teleco Simple

The Teleco Simple wired control unit makes operating your door easy and safe. Featuring push buttons to operate the door, an auto time close function and the option to set-up a safety edge exclusion zone 50 mm from the floor, ensuring full closure each time, even on uneven surfaces. Supplied with two 2-channel handsets.

Teleco Wireless

The Teleco wireless control unit offers all the features of the Simple, but also gives you a neater finish with no wires inside the garage, the added convenience of a courtesy light and GSM compatibility. Supplied with two 2-channel handsets.

Somfy Rollixo

The Rollixo RTS wireless or wired control unit is supplied with wireless or wired safety edge for complete safety protection at the door's bottom edge. It comes with two stylish 4-channel remote controls and includes an integrated courtesy light, buttons to operate the door and a built-in security alarm. The Rollixo is compatible with a wide range of Somfy accessories including Somfy's clever smart home solution – the TaHoma Switch.

Options and Accessories.

Door Options & Accessories

Insulated roller garage doors are wonderfully simple in everyday use thanks to smart technology.

Curtain roll box

Half and full boxes are available to suit ECO77 doors. Either option will take up 300 mm headroom on top of the guide height. ECO55 doors are supplied with half box as standard. Both half or full box has 205 mm headroom on top of the guide height.

Vision slats

Polycarbonate clear glazing is available for ECO77 doors on a proportion of the door curtain to allow natural light into the garage (not available on ECO 55).

Lockable override cover

A lockable cover to protect the manual override access point on externally fitted doors.

Manual exterior release

For use in emergencies or in the event of power failure. Allows the door to be opened manually from outside the garage – essential if the garage has no other entry point. The exterior override can be fitted through the wall, or the door's guide if the door is fitted within the opening, and includes a lockable cover.

Home Automation.

Simple and Effortless

Motorising your garage door, blinds, awnings or window shutters is the first step to making life at home more comfortable and convenient.

Smart Home from Somfy

The Somfy TaHoma Switch is a Smart Control with two buttons to centralise how you use your smart home devices. Control your TaHoma Switch with the touch of a button, remotely with the TaHoma App or via a voice assistant.

Greater peace of mind

Easily connect Somfy accessories, such as a motion detector. If motion is detected, an alert will appear on your phone, and you can check things by viewing through your Somfy security cameras. Total protection for your home.

Integrated alarm as standard
