Removable Window Bars - FS19

Product Overview

Description
The award-winning removable window bars system features anti-cut steel bars which are securely locked into position to protect vulnerable window openings but can be released from the inside to allow total vision or maintenance of windows.

Suitable for installation in a horizontal or vertical format, removable window bars are finished to a high standard and delivers security which is quick and easy to install, yet highly effective in a range of locations.

Common use
Fitted internally over windows.

Maximum Width
3000mm

Maximum Height
2100mm

Weight
16kgs m/2

Standard Finish
Powder Coated White RAL9016 as standard. Other colours available at an extra cost.

Lead Time
7-10 working days (subject to change)

Removable Window Bars - FS19
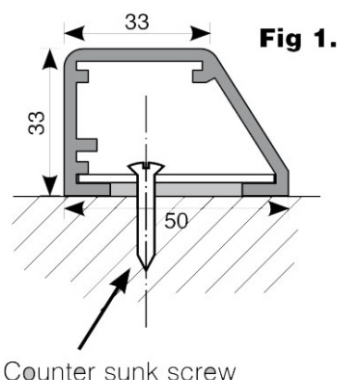

Specification

Infill

Each bar consists of a 19 mm steel outer tube with a free moving 15 mm steel inner tube. Tie bars are fitted as standard on openings over 1600 mm high.

Frame

An Aluminium guide channel is fixed top and bottom with a built in locking system.   The guides are pre-drilled for the vertical bars at 125 mm centers. The bars locate into the top and bottom guides, then are simply locked into position using a high security cam lock.
